

# VERIS Health Solutions

## New for Advisor Partners & Clients at Renewal

### Meet VERIS Health Solutions

As healthcare costs continue to rise in this post-COVID era, delivering affordable health insurance is extremely challenging.

VERIS is dedicated to supporting high-quality care and managing financial stability - **creating new opportunities for guidance and support to proactively mitigate cost-drivers.**

Enter **VERIS Health Solutions (VHS)** - a collective of cost-containment tools to protect VERIS companies and their people by:

- Addressing and cutting high-cost drivers.
- Enhancing the value and impact of company benefit packages.
- Managing financial risk.
- Lowering employee costs.

### Why Now?

Our existing model has undeniably protected businesses and employees from risk.

As claims costs increase at a rapid pace, our team is **pacing ahead** to integrate the best solution experts to tackle the increases.

#### This requires:

- The best architects of funding and risk assessment.
- Solutions that promote better outcomes while reducing costs.
- Streamlining offerings & providing vetted solutions.
- Superior, sustainable stop-loss in this evolving healthcare landscape.

### Get Started

Launching for **July 2025 renewals**, VERIS Health Solutions will be made available with vetted, **recommended** solutions and partnerships to maximize value where it matters most.

## Why VHS?

VERIS Health Solutions is making the **greatest impact** by addressing the **most problematic** claims categories.

This ensures employers have access to cost-saving options and guidance on the policies to protect their bottom line.

**How We Deliver:** The VERIS Consortium is known for its ability to leverage the scope and size of its purchasing power.

As the solution expands the scope of key tools & cost-drivers, **Benecon can extend the power of VERIS in a unique way** - leveraging data & our ConnectCare3 team to tackle the difficult areas such as cancer, GLP-1s, premature births, and even ESRD.

## Next Steps

**Our goal remains the same:** to empower our consulting partners with actionable strategies to drive better outcomes and build long-term cost protection.

**Multi-Year Journey:** Cost-containment requires a strategic, data-driven approach that starts with addressing unique needs.

Take this opportunity to explore vetted, tailored solutions and continue to build on the opportunities.

**Start Here:** By proactively addressing cost-drivers with a today and tomorrow mindset, VERIS Health Solutions can set the stage for advisors to:

- ✓ Present a stronger benefits value proposition.
- ✓ Enhance support for their groups.
- ✓ Lead their clients and the industry in delivering high-quality, affordable care.

## What To Expect

**Get ready for additional communication and educational content to empower you for the upcoming renewal.**

### March Webinars:

Each solution will be featured in a tailored learning lab for advisors & their clients. Recordings will be made available for those that cannot attend live.

### Details in the Renewal Package:

A summary of each cost-containment solution will be included in the renewal package with implementation details.

### Opt-In:

The renewal will include the ability to opt-in to the solutions that best meet the needs of each client.

### The best part?

VHS is **completely optional**. If you decline the opportunity to incorporate the solutions, no action is required. ConnectCare3 resources and services remain included at no cost.
