

Garner is a unique plan addition that drives more care to the best providers in the existing network

Garner is a new, more extensive approach to identifying the highest quality providers in the nation, regardless of network. By incentivizing members to utilize these top providers, we reverse the trend of rising healthcare costs and restore confidence for both employers and the people who depend on them for care.

New standard in doctor ranking

Utilizing **3x** more data, **5x** richer metrics, and covering **4x** more specialties than other doctor ranking solutions to identify doctors who consistently provide:

27%

average savings per episode of care

A proven incentive model

By covering member out-of-pocket expenses when they visit a Garner recommended Top Provider, Garner clients see unprecedented engagement:

60%

of members use Garner to find a doctor*

* Members are defined as those who utilize their health plan each year

Keep your existing network

Unlike solutions that require a network or plan change, Garner sits on top of your existing network, requiring no changes while providing:

12%

lower employer plan costs on average

Garner delivers higher quality, more affordable care to members

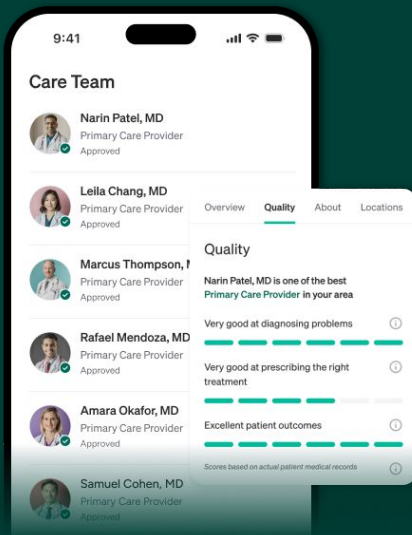

Garner's modern, digital member experience, unique incentive model, and clear, transparent doctor quality data give members the confidence to engage with higher quality, more affordable care. Members who see Garner's recommended Top Providers not only experience 3 more healthy days each year, they also see:

80%

average reduction in member out-of-pocket expenses annually

"I'm no longer intimidated to go to the doctor. When I go to the doctor, I see a Garner doctor."

Martin, OH
Garner member since 2021
